

ALLIANCE
Beekeepers Woodware

www.beehives.co.nz

ALLIANCE Quality Beekeeper's Woodware is New Zealand's gourmet saw-mill, combining an ability to produce premium grade lumber, with the latest in woodworking technology. The result is **ULTRA HIVE** and **ULTRAFRAME**.

Based on the Hoffman frame and Langstroff hive, **ALLIANCE** has produced a quality that is setting standards in the beekeeping industry.

ALLIANCE has a history spanning four generations of timber merchants in New Zealand and services markets on both sides of the equator.

Grade Comparison

All hives are constructed using a sturdy 21.5 mm Radiata Pine, stiffened and hardened using some of the timber industries most advanced and proven seasoning techniques.

Premium - completely free of defects. These are of the finest quality boxes available in the world!

Standard - these boxes contain only tight knots which guarantees the integrity of the hive while providing a cheaper alternative to Premium. There is always clearance between the knot and the edge of the body so there is no risk of edge cracking or fallout. These are a high performance/ low cost hive.

Budget - manufactured primarily for the packaging and transport of full frames.

*From \$7.50+GST

*Minimum quantities may apply

The high quality boxes come with a manufacturer guarantee for assembly and grade. Available in three grades to suit all budgets.

Type Options

Locked Corner - Sturdy dovetailing on four corners ensures a sturdy moisture proof fit. The locked corner box has the ability to be nailed from both directions on all corners.

Rebated - A popular cost effective alternative to the locked corner box, the rebated hive is easy to construct and has proven performance.

ALLIANCE Quality Beekeeper's Woodware

“APISTAN”

FOR VARROA MITE CONTROL

Apistan is specifically designed for beehive use and has an efficiency of 99 - 100% when used as labelled and provides a high initial kill and long term protection over 6 - 8 weeks, or 2 mite Beeding cycles, without any drop off of performance.

Currently registered and used in more than 50 countries worldwide, Apistan is the treatment of choice by the majority of Beekeepers in Varroa infected areas and is the Industry Standard.

Contrary to the Rumour Mill, Apistan will leave no residue in Honey.

It has a far higher safety margin between killing Bees and killing Varroa (22,000 times) than any other treatment registered in NZ.

For the peace of mind that Mite Free Hives give use "Apistan" **NOW**

LARGE QUANTITIES ARE HELD IN STOCK.

Priced at	\$4.00 each + GST	10 - 100
	\$3.75 each + GST	110 - 1000
	\$3.50 each + GST	1010 - 5000

For quantities above 5000,
Please contact Ceracell on (09) 274-7236 and ask for a quotation.

Available from Ceracell stockists.

BAYVAROL® from Bayer -

For SAFE & SERIOUS CONTROL OF VARROA

If you're **serious** about the **safety** of your employees, **serious** about keeping your honey, beeswax and propolis as free as possible from contaminants, and **serious** about killing varroa without side effects to your bees, you should **seriously** consider Bayvarol.

Bayvarol:

- is "extremely low risk" in regards to residues in honey
- is "extremely low risk" in regards to operator safety
- is 95% to 100% effective in killing mites
- contains 3.6mg Flumethrin per strip
- shows extremely low residues in beeswax and propolis
- causes no increase in bee mortality & has no effect on workers, drones or queens
- requires the use of four strips per full box of brood, giving a large treatment surface area
- is easy to insert and remove due to the strips' rigidity
- can be used during the honey flow

Current prices at the time of printing:

20 to 96 strips \$2.00 + GST each
100 to 796 strips \$1.88 + GST each
800 to 8800 strips \$1.70 + GST each
9600 to 19,200 strips \$1.60 + GST each
20,000 plus POA

Packets contain 20 strips, cartons contain 800 strips

Orders of 100 strips or more are despatched freight free to anywhere in New Zealand.

Payment is required prior to despatch, by Visa, Mastercard, Cheque, Cash or Electronic Banking.

Purchases can be made from Ecroyd Beekeeping Supplies Ltd and their stockists.
