## SOMETHING ABOUT HONEY

All honey is good but some is more palatable than others. Why? Because honey gathered from different flowers has different flavours. Also the honey has to be handled after the bees are done with it and this counts. The claim that Imperial Bee Honey is the best on the market is based on its being a blend of the best flavoured honeys, and on its being handled and packed so that the natural flavour and colour is preserved. It is the honey that is introducing New Zealand's sunshine to many countries.

Imperial Bee Honey is used throughout the United Kingdom, Germany, Austria, Isle of Man, Channel Islands, Faroe Islands, Denmark, Norway, Sweden, Finland, Greenland, Iceland, Straits Settlement, Federated Malay States, Hong Kong, Uruguay and the Argentine. You cannot go wrong in buying Imperial Bee Honey, the honey with the world wide reputation.
