

The National Beekeepers' Association of New Zealand

President. P. A. HILLARY.

Secretary: A. ECROYD.

TUAKAU,  
AUCKLAND, N.Z.

June 15, 1933

The Director  
Apiary Division  
Dept Agriculture  
Wellington.

Dear Sir,

On behalf of the many beekeepers who are suffering severely as the result of the drop in prices for honey, I wish to ask your kind help in urging upon the authorities the need for any form of relief and assistance that can be given to the industry with the object of keeping the beekeepers in a position to continue with their production of honey. Already several have been compelled to seek relief work & unless some assistance to the industry can be arranged to obviate the liquidator of the N.B.A. realising the assets & pressing beekeepers for the deficit, very many producers will be forced into the ranks of the unemployed & further aggravate the grave economic position that is causing such concern to the Government.

We have always had your very best help in our problems & hope that you can again help us in this urgent matter. Yours faithfully,  
P. A. Hillary  
President N.B.A.
