Leiston, 31<sup>st</sup> July 1933

Hon C. E. Macmillan  
Minister of Agriculture  
Wellington

Dear Sir,

Yours of 27<sup>th</sup> July to hand. We would not have asked you for ~~the~~ investigation into the affairs of the Honey Producers Union only that beekeepers have had no opinion but to let C. & E. Morton handle their honey in London as this firm was appointed agent for the Honey Export Control Board. Seeing that exports are in the hands of a Control Board we consider that you should use every endeavour to get to the bottom of the cause of the Control Boards agents making such an unbecomingly messy of things. The Government has a moral responsibility in the matter.

We remain, Sir,

Yours faithfully  
Barrett & Bray.
