11th August, 1948.

Mr. H.D. Maxwell,
172 St. Aubyn Street,
NEW PLYMOUTH.

Dear Sir,

We are pleased to tell you that for the packers who do not have their own printed Honey Tins but who want something a little better than the plain containers, we can now offer a standard design in the 5lb. size. Our artists have prepared a particularly attractive pattern in gold and blue with the wording "Finest New Zealand Honey". There is a blank panel left for the name and address of the packer, and for this we can supply a three-line rubber stamp, complete with pad and special ink, at 10/- for the set.

Our price for the standard print is 15/10d. per gross extra on to the charge for plain tins, which is 109/- per gross, nett, for lots of 5 gross and over, 114/5d. for less than this quantity. We are not printing a standard 10 lb. size, but our price for plain tins in this size is 145/- per gross, nett, in lots of 5 gross and over, 152/3d. for less.

Some of our clients have intimated that this year they require 2 lb. tins for Overseas Food Parcels, and as we have a very fast line to produce this container, we could meet any demand. If you are interested in this size, we can supply at 58/11d. per gross, nett, in 5 gross lots - 61/10d. in quantities under this.

Should you wish to discuss anything in connection with the packaging of your honey, the writer would be very happy to call and see you, and if you favour us with an order we can promise you prompt delivery.

Yours faithfully,
ALEX. HARVEY & SONS (WELLINGTON) LTD.

H. K. Harvey
MANAGER.
